St. Thomas, Virgin Islands; Dallas, TX; Austin, TX; Houston, TX; Los Angeles, CA  
**Project Type:** Law Firm  
**Square Feet:** 175,000  
**Project Mgr:** Scott Brooks

## SCOPE

Design/Construction Management/Procurement/Relocation

## OPPORTUNITY

Honour represented the firm's interests with the national developer during the construction of a speculative building, which Ogletree Deakins was the lead tenant.

## SOLUTION

Honour value engineered the building design and processes with the developer to reduce the total construction budget, thereby reducing occupancy cost for the firm. Managing the "design, bid, build" process for all interior work, Honour performed this independently of the developer on behalf of the client. Leading the client through the furniture process, Honour managed the furniture process including: layout, selection, procurement, installation, "punch," and troubleshooting.

## RESULT

Due to the success of the first project location, Ogletree Deakins has utilized Honour Project Management for every one of their other office sites, including: Atlanta, GA; Birmingham, AL; San Antonio, TX; Indianapolis, IN; Raleigh, NC; St. Thomas, Virgin Islands; Dallas, TX; Austin, TX; Houston, TX; Los Angeles, CA for a total of over 175,000 SF.
